

Anne-Sophie Møller joins Targovax

Targovax has the pleasure of announcing Anne-Sophie Møllers appointment as Director of Clinical Science.

Anne-Sophie has an MSc and a PhD in Cell Biology and Immunology, both from the University of Oslo bringing over 25 years of both academic and commercial research experience to Targovax. She joins us from Thermo Fischer Life Technologies where she was the Senior Manager of Method Development & Quality Control. Her academic career includes working at Århus University in Denmark, the University of Oslo and the Norwegian Radium Hospital in addition to over ten years in the pharmaceutical industry with Nycomed Pharma and Thermo Fisher.

Anne-Sophie will lead our pre-clinical and clinical science department from our Oslo office starting 1st August.

We are very happy to welcome Anne-Sophie to the team here at Targovax.
